

The background image is a high-angle photograph of a modern spa deck. In the foreground, a large, circular white hot tub is filled with bubbling water. The deck is made of grey wood planks. To the right of the hot tub, there are two wooden lounge chairs with light blue cushions and black and white striped towels. A small round table with a striped trash can and a drink is between the chairs. In the bottom left corner, there are three white decorative lanterns. A blue semi-transparent rectangle is overlaid on the left side of the image, containing the text.

- Tried and tested reliability
- An extremely attractive price

Hotel spas, wellness centres, commercial pools, cruise ships, camp sites: Procopi's commercial spas come in a wide range of shapes and sizes to suit every need and adapt to any space.

## Procopi's commercial spas – 5 irresistible qualities

### **Seductive appeal**

With their harmonious shapes and refined appeal, Procopi's commercial spas bring a captivating touch of elegance and charm.

### **Well designed equipment**

Procopi's commercial spas are lavishly appointed (see page 8).

### **Top of the line filtration**

The Python sand filter/ Eurostar pump combination is the most advanced filtration system available, pure, crystal clear water guaranteed.

### **Tried and tested reliability**

Procopi's commercial spas are designed to be hard-wearing and easy going. The design is kept simple so upkeep is straight-forward and stress free.

### **An extremely attractive price**

Procopi's commercial spas are manufactured in large quantities, the resulting economies of scale reduce the cost price to allow Procopi to offer their commercial spas at very affordable prices.
